info@tsavending.com

Available in freeze dried, fresh brew or bean-to-cup configurations, the Geneva dispenses a broad menu of premium and specialty coffees and serves them just the way your customers like them.

With a state-of-the-art brewing system and precise ingredient controls, they are ensured a high-quality cup each and every time.

Drinks are available with lightener and / or sugar.
Eight canisters allow for a large range of possible drink selections.

Advanced Power Management System

Geneva saves energy by powering down during low use periods.

Comprehensive Drink Range

Geneva offers a wide variety of drinks including two specialty coffees with lightener and sugar options.

State-Of-The-Art Brewing System

Simple brewing system and state-of-the-art filtering ensure a high quality, consistent drink (No Filter Paper Required)

iVend Guaranteed Delivery System

Infrared sensor system ensures your customer receives their cup or their money back.

One Touch Servicing

Servicing is straight forward and clean-up is simple. Flush bowls & brewer with just one push of a button.

Own Cup Feature

Use your own cup. Geneva automatically senses when you've placed your cup in the vend area.

Optional Smart Card Programming

Upload pre-configured settings to one or multiple machines.
